Helping you beat the heat

It takes a team to keep you cool all summer long. As a member of Midcontinent Independent System Operator (MISO), we are prepared for the energy demands of summertime. MISO provides us with a safety net of energy production and distribution that spans from Louisiana through parts of Canada. This partnership ensures long-term reliability in energy distribution, especially during summer months when energy use increases. Our membership in MISO is just one of the ways we'll meet your energy needs today and tomorrow.

Take the July PowerHouse Challenge: **Don't get the summer blues**

With summer comes heat and humidity. That can mean spending a lot of time inside running your air conditioner.

Do your best to beat the heat without overtaxing your air conditioner. A lower thermostat setting won't cool your home any faster, but it will add unnecessary costs and energy use. Instead use fans for a cooling effect. Block sunlight with blinds, shades or curtains during the hottest part of the day. Try to use air conditioning only during the hottest part of the day. At night, if the outside temperature cools off, open your windows to enjoy the cool air.

Visit powerhousetv.com to find more ways to stay cool and save this summer.

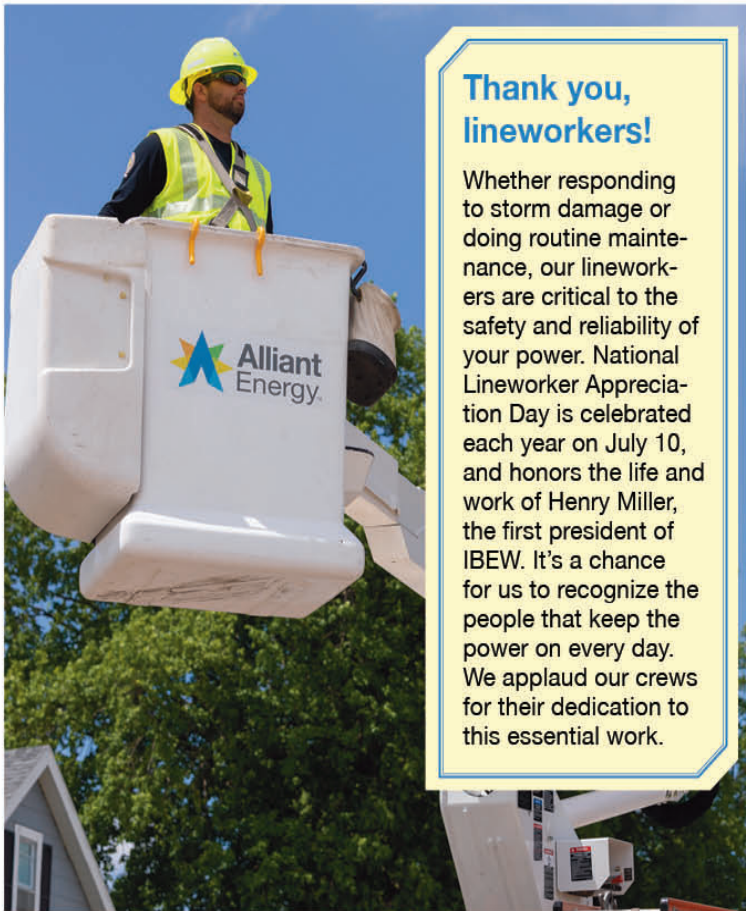

Summer savings plus \$50 in your pocket

If you take advantage of summer appliance sales to buy a new refrigerator or freezer, recycle your old appliance through our Appliance Recycling program. We'll pick it up for free and give you \$50. You must be an Iowa Alliant Energy electric customer to participate.

Learn more at alliantenergy.com/recycleandsave today.

Thank you, lineworkers!

Whether responding to storm damage or doing routine maintenance, our lineworkers are critical to the safety and reliability of your power. National Lineworker Appreciation Day is celebrated each year on July 10, and honors the life and work of Henry Miller, the first president of IBEW. It's a chance for us to recognize the people that keep the power on every day. We applaud our crews for their dedication to this essential work.

Celebrating 50 years of RAGBRAI

We join in RAGBRAI's 50th anniversary by supporting communities and their celebrations along the route. The annual bike ride brings together Iowans and showcases the beauty and strength of Iowa communities. We look forward to strengthening rider and community efforts through our sponsorships and wish a fun, safe time to all.

How do you use your energy?

Alliant Energy is proud to celebrate volunteers who advance workforce readiness and STEM in the communities we serve, like Mike Connor in Stoughton, Wisconsin. He helped create a Fab Lab at Stoughton High School.

The fabrication laboratory lets students build and test engineering designs as they learn to

cut vinyl, use a 3D printer, laser cut, practice computer-controlled milling and more. In the last decade, the program has grown to include activities for adults as well as a second location, an Innovation Center at the Stoughton Middle School. The Stoughton Fab Lab regularly refreshes the technology to stay up with new trends, thanks to support from donors like Alliant Energy.

Learn more about Connor's work inspiring innovation at alliantenergy.com/illuminate.
